

# Rabbits

## Minimising Damage without Fencing

- \* **Curb is a rabbit deterrent which makes the crop unpleasant to taste**
- \* **Based on aluminium ammonium sulphate (also used as a water treatment)**
- \* **In 2009 twelve BCTGA members assisted with field assessments of Curb WP.**
- \* **These were generally successful and helped lead to a product approval**
- \* **Much was learned from the study - in particular, how to optimise the use.**
- \* **A liquid formulation of is now available as Sphere ASBO**
- \* **The manufacturers are looking for trial sites to fine tune recommendations**
- \* **Spraying and assessments will be undertaken independently**
- \* **Sphere are, in addition, paying £100 to growers for each successfully treated site.**
- \* **Speak to Colin Palmer if you have a possible site.**
