

WEED & PEST CONTROL IN TREES & AMENITY

Contents

ii. Introduction

SECTION 1. THE BASICS

1. The label
 - Product approval
 - EC pesticides review
2. Product label layout (Illustration 1)
3. Fields of use & situations
5. Application records (Table 1)
6. Operator / public safety & certification
7. Protective clothing/mixing equipment
8. COSHH pesticide assessment (Table 2)
9. Protective clothing. Herbicide legal requirements by product (Table 3)
10. Protective clothing. Insecticide / fungicide / PGR legal requirements by product (Table 4)
11. Pesticides & the environment
 - Handling the concentrated pesticide
12. Spraying near the aquatic environment
13. Environmental effects of diluted herbicides (Table 5)
14. Environmental effects of diluted insecticides (Table 6)
15. Pesticide manufacturers (Table 7)
16. Product formulations (Table 8)

Optimising the application operation

17. Deciding the area to spray
18. Selecting optimum rates (Tables 9-12)
19. Getting the timing right
20. Utilising the best weather conditions
21. Using herbicides in tank mixtures
23. Hand operated application equipment
25. Spinning disc application (CDA)
26. Droplet size & spray quality (Table 13)
27. Types of spray nozzles (Table 14)
28. Selecting nozzles for efficient spraying
 - Using reduced spray volumes (Table 15)
29. Nozzle application charts (Table 16)
30. Calibrating hand held sprayers
 - Calibrating mistblowers
31. Using adjuvants & spreaders (wettors)
32. Adjuvants & spreaders - how they work (Illustration 2)

SECTION 2 HERBICIDES AND WEED CONTROL

33. Mode of action & selectivity of foliar & residual herbicides

Herbicide Technical Summaries

- | | |
|-----------------|------------|
| 34. acetic acid | amitrole |
| 35. asulam | clopyralid |

- | | |
|--|----------------------------|
| 36. clopyralid + triclopyr | cycloxydim |
| 37. 2,4-D | 2,4-D + dicamba |
| 38. 2,4-D + picloram | 2,4-D + dicamba+ triclopyr |
| 39. dicamba | dicamba + MCPA+ mecoprop P |
| 40. dicamba+meoprop P | dichlobenil |
| 41. diflufenican+glyphosate | diquat |
| 42. fluazifop-p-butyl | fluroxypyr |
| 43. glufosinate ammonium | glyphosate (biactive) |
| 44. glyphosate (non biactive) | isoxaben |
| 45. MCPA | meoprop-P |
| 46. metamitron | metazachlor |
| 47. napropamide | oxadiazon |
| 48. pendimethalin | picloram |
| 49. propaquizafop | triclopyr |
| 50. proyzamide | |
| 51. Withdrawn products timeline (Table 17) | |
| 52. 2007/8 revocations - atrazine, cyanazine, diuron, paraquat, simazine | |

Control of Specific Weeds

54. Grass control summary (Table 18)
55. Susceptibility of grasses to glyphosate (Table 19)
56. Pre emergence annual weed control (Table 20)
57. Post emergence annual weed control (Table 21)
58. Control of perennial weeds (Table 22)

Perennial broadleaved weed control

- | | |
|---|--------------------|
| 59. Bindweed (field) | Bracken |
| 60. Buttercup | Clover |
| 61. Dandelion | Dock |
| 62. Hawkbit / Hawkweed | Himalayan Balsam |
| 63. Hogweed | Giant Hogweed |
| 64. Horsetail | Japanese Knotweed |
| 65. Nettle | Plantains |
| 66. Ragwort | Rosebay Willowherb |
| 67. Thistles | |
| 68. Woody weeds - foliar control (Table 23) | |
| 70. Woody weeds - cut stump (Table 24) | - stem treatments |

Control of specific woody weed species

- | | | |
|--------------|----------|---------------------|
| 71. Birch | Bramble | Broom |
| 72. Buddleja | Gorse | Hawthorn/Blackthorn |
| 73. Ivy | Sycamore | Rhododendron |

SECTION 3 INSECT, FUNGI & PEST CONTROL

74. Insecticide mode of action/selectivity (Tables 25 / 26)

Insecticide Technical Summaries

- | | |
|------------------------|-------------|
| 75. abamectin | acetamiprid |
| 76. alpha-cypermethrin | bifenthrin |

- | | |
|------------------------|----------------------------------|
| 77. chlorpyrifos | cypermethrin |
| 78. deltamethrin | diflubenzuron |
| 79. dimethoate | emulsified oils/ physical agents |
| 80. fatty acids | fenpyroximate |
| 81. lambda cyhalothrin | pirimicarb |
| 82. pyrethrins | tebufenpyrad |

Fungicides - Technical Summaries

83. prochloraz tebuconazol urea

Vertebrate Control - Technical Summaries

84. aluminium phosphide warfarin

Growth Regulators - Technical Summaries

85. maleic hydrazide naphthylacetic acid.
86. trinexipac-ethyl quinclamine (algae)

SECTION 4. GUIDANCE & ADVICE

Forestry

87. Upland and replant forestry weed control (Table 27)
88. Upland and replant post planting herbicides (Table 28)
89. Weed control in farm woodlands (Tables 29 - 32)
91. Managing grass & broadleaved weeds in farm woodlands
93. Weed control in short rotation coppice (Tables 33 - 35)
95. Weed control in naturally regenerated woods (Table 36)
96. Insect, Pest & Disease Control in Forests, Woodlands & Amenity Vegetation.

Christmas Trees

97. Weed control in Christmas Trees (Tables 35 / 36)
99. Insect & Disease Control

Amenity

102. Weed control in amenity trees & shrubs (Table 37 / 38)
103. Weed control in areas of public access
105. Weed control in amenity grassland (Table 39)
106. Aquatic weed control Table 40)
107. Total weed control (Table 41)
108. Index A - E
109. Index E - P
110. Index P - Y
111. **Further Information.** Books & websites
